

I don't want the protection and privacy that the Indiana Telephone Privacy law provides to be lessened at all. I am a homemaker and am home all day. We used to receive numerous telemarketing calls throughout the day, but especially at night. Calls would come as late as 9:00-9:30. I now receive NO calls at all! This law has taken away so much stress. Not having to answer the phone and hear someone's sales pitch is so enjoyable. Thank you.
